MO Lottery

Overview

Introduction

What is a lottery?

A lottery consists of three elements: prize, chance and consideration.

The first lottery with cash prizes dates back to 1490. Lotteries were authorized to raise money for the colonial army. In addition, lotteries helped put a roof on the United States Capitol and build educational institutions like Harvard, Yale and Princeton universities.

It wasn't until 1964 that the modern lottery era began in New Hampshire, and since that time, 45 states, the District of Columbia, Mexico, Puerto Rico, the U.S. Virgin Islands and Canada have created lotteries. For a complete historical timeline of lotteries, visit www.naspl.org.

On Nov. 6, 1984, Missouri voters overwhelmingly approved the Missouri Lottery by passing Amendment 5, which repealed a section of the state's constitution prohibiting a lottery. The measure passed with 70% of the vote, making the Missouri Lottery the 23rd lottery in the United States.

Missouri Lottery

Missouri Lottery ticket sales began in January 1986. The Lottery has provided the state, including education, with more than **\$8 billion** in proceeds, as of publication date. Additionally, 720 players have won life-changing jackpots between \$1 million and \$293.7 million, totaling more than \$4.7 billion. Missouri Lottery retailers have earned more than \$2 billion in commissions, incentives and bonuses.

A five-member commission, appointed by the governor and approved by the Senate, governs the Lottery. The executive director oversees the daily operations of the government agency.

The Missouri Lottery is based in Jefferson City with three regional offices located in: Kansas City, St. Louis and Springfield. The Lottery is broken down into five divisions: Division of Sales, Division of Operations, Division of Executive Director's Office, Division of Information Technology, and Division of Marketing.

Scams and Spam

Phony Promotions, Illegal Schemes and Bogus Emails (Spam)

According to the Federal Trade Commission (FTC), consumers in the United States and other countries lose billions of dollars each year to fraudulent telemarketers, spam emailers, misleading advertisements and fake social media accounts that entice consumers into phony prize promotions and illegal foreign lottery schemes.

When it comes to fraud, being an alert and informed consumer is the best way to protect yourself.

Recognizing Legitimate Contacts from the Missouri Lottery

To claim a Missouri Lottery prize, you will NEVER be required to send any money or give personal information by email, over the phone or through social media in an effort to collect promised winnings.

There are only a few instances that the Missouri Lottery may require a player to submit some personal information. These instances include:

1. Supplying their Social Security number on a Lottery provided claim form for prizes over \$600. **This information is never collected over the phone or by email.**
2. Verifying a winner's phone number and shipping address for prize redemption if the winner has entered promotions at MO Lottery.com or one of the Lottery's social media contests and is selected as a prizewinner.

You will never be asked to submit private information or family data, like your mother's maiden name.

Missourians who receive unwanted telemarketing calls, unsolicited mail, spam text or email, or social media messages can contact the Missouri Attorney General's Consumer Protection Division at 1-800-393-8222 or www.ago.mo.gov.

The Games

Game Information

Players must be 18 years or older to purchase a Missouri Lottery ticket.

Scratchers®

The Missouri Lottery has offered players more than 1,500 different Scratchers® games ranging from \$1 to \$50 since the Lottery began in January 1986. These games have paid out prizes ranging from a free ticket to \$10 million.

Overall chances vary from game to game due to the variance in prize structures. Generally, [Scratchers®](#) games have average chances of winning of 1 in 4, ranging from 1 in 4.81 in the \$1 games to 1 in 2.93 in \$50 games. Overall, approximately 73% of Scratchers® sales are returned as prizes – ranging from 62% in \$1 games to 80% in \$50 games.

Draw Games

All Draw Games include an opportunity for players to select their own lucky numbers or let the computer select the number(s) by using the Quick Pick feature. The percentages of Quick Pick sales for Draw Games overall is 45%. The percent of sales using Quick Pick by game are:

Mega Millions® – 92%
Powerball® – 89%
Missouri Lotto – 90%
Cash4Life® – 82%
Show Me Cash® – 82%
Cash Pop™ – 33%

Club Keno® – 33%
Pick 3 – 10%
Pick 4 – 9%

Ticket Tips

- **Ensure the wager on the Draw Games ticket is the one you requested before you exchange money for the ticket.** It is the responsibility of the player to ensure that their ticket has the correct information, like the numbers played, dates played, type of play, etc.
- **Know when your tickets expire.** Draw Games tickets expire 180 days after the last winning draw date on the ticket. Scratchers® games expire 180 days after the official game ending date. Official Scratchers® game ending dates and expiration dates can be found at MOLottery.com
- **Sign your ticket.** Fill out and sign the back of your ticket immediately.
- **Keep tickets in a safe place.** In order to claim any Lottery prize, you must have your ticket. Just like dollar bills, Lottery tickets are bearer instruments.
- **Always allow extra time for any damaged ticket you send to the Lottery for verification.** Damaged tickets will take more time to process. From time to time, the Lottery receives tickets from players that have been destroyed by things like washing machines. Unfortunately, most of these tickets have been too badly damaged for the Lottery to reconstruct.

[Missouri Lotto](#) is an in-state Draw Game that offers players a chance to win a life-changing prize. Jackpots start at \$1 million and have reached as high as \$19 million. The Draw Game officially began on Oct. 1, 1986.

To Play Lotto

- Select two sets of six different numbers between 1 and 44.
- Or use Quick Pick ("QP") to allow the computer to choose the numbers randomly.

Game Options

- **Multi Draw:** Play the same numbers for up to 15 consecutive drawings. Lotto can be played for 1, 2, 3, 4, 5, 10 or 15 consecutive drawings. Two plays cost \$1.
- **EZ Match:** For an additional \$1 per play, players can add EZ Match for a chance to win up to \$500 instantly. Once the EZ Match option is chosen, six EZ Match numbers will print on the Lotto ticket below the Lotto numbers. If any of the EZ Match numbers match the selected Lotto numbers (regardless of the order), the player instantly wins the prize amount printed next to the matched EZ Match number(s).
- **Lotto Doubler:** Lotto Doubler is a FREE game feature that gives players the chance to double winnings whenever a Lotto ticket is purchased. Lotto tickets are randomly printed with the message, "THIS IS A DOUBLER TICKET!" Whenever a Lotto ticket has this message printed on it and the player wins a non-jackpot prize, the prize is doubled.

Payment Options

Jackpot winners have 60 days from the claim date to choose an annuity or lump-sum payment option. If players do not choose an option after 60 days, payment automatically defaults to the annuity option.

- **Jackpot payments (annuity):** Prize is paid out in 25 payments over 24 years.
- **Lump-sum payment (cash):** The lump-sum cash option prize is approximately half of the advertised jackpot. If they choose the cash option, they will get the cash the Lottery would have invested over the 24-year annuity period in order to pay the advertised prize amount.

Liability Limits

Two Missouri Lottery games – Pick 3 and Pick 4 – have liability limits, meaning players may be denied the purchase of numbers when a certain number of tickets with a particular combination have been sold. Liability limits have been placed on these games to keep the Lottery from selling more winning tickets than it can pay. The liability limit is \$2 million for Pick 3. Setting liability limits is standard in the lottery industry on games with fixed payouts.

Club Keno®

Club Keno® is a daily Draw Game that gives players a chance to win up to \$100,000 per \$1 ticket or up to \$1 million with add-on options. Drawings are held every four minutes from 5:04 a.m. to 1:52 a.m.

The traditional Club Keno® is available at approximately 800 social environment locations like restaurants, bars and fraternal organizations. The drawings are shown on video monitors at the retail location. The Draw Game officially began on May 28, 2002.

Keno To Go is available at convenience stores, grocery stores and similar locations.

To Play Club Keno®

- To play, choose how many different numbers (also called "Spots") you want to play from 1 to 10 or by using Quick Pick. Twenty numbers from a field of 1-80 will be chosen randomly by the computer. Players win for the drawing they played if their numbers match those drawn. The more numbers a player matches, the more they will win. Players can even win by not matching any Spots in a 10-Spot game. Club Keno® can be played for 1, 2, 3, 4, 5, 10 or 20 consecutive draws.

Optional Add-On Features

- Multiplier:** This option provides the opportunity to multiply a prize up to 10 times the base amount, up to \$1 million. Multiplier doubles the cost of the play.
- Bulls-Eye:** This option provides larger prizes and more chances to win. Bulls-Eye doubles the cost of the play.
- Double Bulls-Eye®:** This option provides more chances at larger prizes and more chances to win. Double Bulls-Eye triples the cost of the play.

Progressive Jackpot with 6-, 7- and 8-Spot Games

The 6-, 7- and 8-Spot games have an extra rolling jackpot prize called Progressive jackpot. Players are automatically eligible if they choose to play any of these three Spots. **There is no additional cost and nothing additional to mark on the playslip.** The Progressive jackpot feature adds a rolling jackpot bonus prize in addition to the regular top prizes on these Spots (6 of 6, 7 of 7 or 8 of 8 numbers matching those drawn). It is a pari-mutuel jackpot prize, meaning the prize varies depending on the total amount played and number of winners. If a player matches all the numbers on a 6-, 7- or 8-Spot game, the player will automatically win both the regular prize and the rolling jackpot bonus prize. If the jackpot is not won during the drawing, it continues to grow.

Progressive Jackpot on Club Keno® Monitor

The Club Keno® Progressive jackpot amount is the base play for that Spot play and bonus jackpot amount. Example: The base for matching all eight numbers on an 8-Spot game is \$10,000. When the monitor displays \$10,500 for the 8-Spot Progressive jackpot, it is equal to the \$10,000 base plus the jackpot bonus amount (in this case, \$500).

Multiplier Feature

With this feature, players have the option to win up to 10 times the prize amount on all Club Keno® base prizes (up to \$1 million). Before each drawing, a wheel is spun to determine the Multiplier number for that drawing. The wheel includes 80 slots with the numbers 1, 2, 3, 4, 5 and 10. Those numbers represent the amount of the Multiplier. See the chart below for overall chances for the Multiplier. Multiplier costs an additional \$1 per \$1 play.

Multiplier Number	Number of times each number appears on the wheel	Overall chances of number being selected is 1 in:
1X	32	2.5
2X	34	2.35
3X	5	16
4X	5	16
5X	3	26.67
10X	1	80

Chances of at least 2 being selected are 1 in 1.67

Bulls-Eye Feature

The Bulls-Eye option offers larger prizes and more chances to win. One of the winning 20 numbers drawn every four minutes is the red Bulls-Eye number. Every time a player adds Bulls-Eye and matches the Bulls-Eye number, they will win bigger prizes. Players can win a Bulls-Eye prize even if they don't win a Club Keno® prize. There are three ways to win when Bulls-Eye is added:

1. Match your number to the Bulls-Eye number drawn with no other Club Keno® numbers matching those drawn.
2. Match your number to the Bulls-Eye number and additional Club Keno® numbers drawn.
3. Match your Club Keno® numbers to those drawn with no Bulls-Eye number match.

The total cost of the transaction will be doubled, meaning the Bulls-Eye wager will always match the amount of your Club Keno® wager.

Club Keno®

Double Bulls-Eye® Feature

The Double Bulls-Eye® option offers even larger prizes and more chances to win. During every Club Keno® drawing, 20 winning numbers are drawn. At the end of that drawing, one of those numbers is selected as the red Bulls-Eye number. With the addition of Double Bulls-Eye®, a second Bulls-Eye number (green) will be drawn after the first Bulls-Eye number has been drawn. Players who play Double Bulls-Eye® will win when they match either the red or green Bulls-Eye number and even more when they match both Bulls-Eye numbers for Double Bulls-Eye®. There are five ways to win when Double Bulls-Eye® is added to a Club Keno® Play:

1. Match the Club Keno® numbers played to **either** the red **or** green Bulls-Eye numbers with **no** other Club Keno numbers matching those drawn.
2. Match the Club Keno® numbers played to **either** the red **or** green Bulls-Eye numbers **and** additional Club Keno numbers drawn.
3. Match the Club Keno® numbers played to **both** the red **and** green Bulls-Eye numbers (Double Bulls-Eye®) with **no** other Club Keno® numbers matching those drawn.
4. Match the Club Keno® numbers played to **both** the red **and** green Bulls-Eye numbers (Double Bulls-Eye®) **and** additional Club Keno® numbers matching those drawn.
5. Match the Club Keno® numbers played to those drawn with no Bulls-Eye numbers matched.

Club Keno® plays with Double Bulls-Eye® cost an extra \$2 per \$1 Club Keno® play (\$1 Club Keno® + \$2 Double Bulls-Eye® = \$3 per Double Bulls-Eye® wager).

Claiming Cash Prizes

Missouri Lottery retailers may be able to redeem prizes up to \$600. Players can also redeem prizes through the mail. In-person claims for prizes over \$600 are handled by appointment only at Missouri Lottery offices.

Powerball[®], Mega Millions or Cash4Life[®] jackpot/top-prize winners must present the winning ticket at Missouri Lottery Headquarters in Jefferson City to validate and claim their prize. Lotto and Show Me Cash[®] jackpots and Scratchers[®] top prizes can be claimed at any Lottery office.

If a prize is more than \$600, the winning ticket must be accompanied by a completed [claim form](#) and a W-9 form, which are available at MOLottery.com, Lottery offices and at Lottery retailers. Winning tickets must have a name, address, telephone number and signature to be redeemed.

Mail winning tickets to:

Missouri Lottery
Ticket Redemption
P.O. Box 7777
Jefferson City, MO 65102-7777

Players have exactly 180 days from a Scratchers[®] game's official end date to claim a prize or exactly 180 days from the last winning draw date on a [Draw Games](#) ticket to claim a prize. Official Scratchers[®] game end dates can be found at MOLottery.com.

Taxes

The Lottery withholds 4% Missouri state taxes on prizes of more than \$600 and an additional 24% federal tax for prizes more than \$5,000. Depending on a player's income situation, they may owe additional taxes or receive a refund. A W-2G form is printed on check stubs for prizes of \$600 or more.

Missouri Lottery Drawings

Missouri Lottery Drawings

The Lottery's current computerized drawing system, which was implemented on July 20, 2020, uses technology to select the numbers for in-state Draw Games.

The computerized system, named Origin (manufactured by Smartplay International, Inc.), is housed in a secure draw room in Jefferson City. These draw systems are not connected to the Internet or any other network source. The room has no other data lines from which to send or receive information.

The system is operated by a Lottery employee Draw Manager in the presence of an Independent Auditor. The system is designed to draw games in "Game Sets," which include all games to be drawn at either the Midday or Evening draw time. Each Game Set may only be drawn once per day and only within specific timeframes.

Only designated Missouri Lottery drawing personnel and an Independent Auditor are allowed in the room during a drawing. Every drawing is monitored by special motion-activated video cameras which videotape every action on the draw computers and in the drawing room.

Access to this room is further limited by secure keypad access that allows only designated draw personnel to enter the room. Furthermore, the Origin System used to draw the numbers is randomly selected from one of two identical systems prior to every draw. These systems require user-specific usernames and passwords. Consequently, only designated draw personnel will be able to log in to the system to perform any drawing. In addition to the motion-activated video cameras in the draw room, all activity on the Origin System is electronically logged.

The Origin System continuously tests its Random Number Generators (RNGs) to ensure they are operating within acceptable parameters. These RNGs are connected to the system via the Random Number Server (RNS), which is not physically accessible to Missouri Lottery employees or the Independent Auditor as it is housed in a locked chassis. An alarm system connected to this locked chassis will alert the Origin System if it detects a physical intrusion, and will lock the system down.

Gaming Laboratories International certified the Origin System's equipment, components, and computer software which created "checksum" values providing the underlying security of the drawings. Before each drawing, these checksums are verified by both the Draw Manager and the Independent Auditor to confirm the continued integrity of the system's software.

Lastly, the Origin System maintains logs and tables of data traffic and activity as it occurs. With this information, Missouri Lottery Security personnel are able to "reconstruct" any drawing that has taken place to confirm its validity.

Winner Information

Winner Information and Unclaimed Prizes

Winner Information

During FY24 (July 1, 2023, to June 30, 2024) more than 235,763 winning tickets were sold EVERY DAY. In total, players won more than \$1.2 billion during the fiscal year, bringing the total won by Missouri Lottery players to more than \$21.1 billion in overall prizes.

In FY24:

- 46 life-changing prizes ranging from \$1 million to \$5.2 million were won in Missouri (totaling more than \$86.1 million)

- o 27 Scratchers players won prizes ranging from \$1 million to \$5 million
- o 8 Lotto players won between \$1 million and \$5.2 million
- o 5 Mega Millions players won \$1 million prizes
- o 3 Powerball players won \$1 million prizes
- o 3 Cash4Life players won \$1 million prizes
- o 39 Show Me Cash players won between \$50,000 and \$807,000
- o 83 Powerball players won between \$50,000 and \$200,000

The Missouri Lottery loves to celebrate winners. However, that celebration does not include winners' names without prior written consent, in accordance with §313.303 RSMo. As a result, the names of Lottery winners, including promotional winners, are no longer available at MOLottery.com or via our mobile app.

The Typical Missouri Lottery Player:

The average Missouri Lottery player is a 44.4 year-old Caucasian employed female that is a high school graduate with some college education and an average income of just over \$60,000.

Unclaimed Scratchers Prizes

Scratchers® players can view and compare unclaimed prize information for all active [Scratchers®](#) games at MOLottery.com and on the Missouri Lottery app.

Since many different games can be offered at one time, Scratchers® players can sort the list by ticket price. Once the page reloads, the list will be reorganized with all the games at that price point for each comparison.

Game details provide the following: all prize levels listed for that game and corresponding unclaimed prize information, total cash prizes won and unclaimed for that game, how-to-play instructions, a graphic of the game ticket and average chances of winning a prize in that specific game. Unclaimed prize information is updated daily.

Unclaimed Prizes

Unfortunately, some players don't realize they have won a Missouri Lottery prize. Sometimes tickets are mistakenly thrown away, a redemption deadline lapsed or a simple error was made when looking at the ticket. Whatever the reason, approximately 1% of sales will be reflected in [unclaimed](#) prizes each year.

Currently, unclaimed prize money is transferred to the Lottery Proceeds Fund to benefit public education. Prior to fiscal year 2001, unclaimed prize money was returned to players as prizes and promotions.

The largest Missouri prize to go unclaimed was a Lotto prize worth \$3.5 million from the Nov. 12, 2016, drawing. That ticket was sold at Hermann Fuel Mart, 115B Highway 19, in Hermann. Another Lotto jackpot worth \$1.7 million from the Feb. 20, 1999, drawing previously expired.

Annual Comprehensive Financial Report

Each fiscal year, the Missouri Lottery compiles a thorough presentation of the organization's financial condition, known as the [Annual Comprehensive Financial Report](#). This detailed report includes four sections – introductory, financial, statistical and compliance – which outline the Lottery organization, its business practices, financial expenditures and disclosures. An independent audit report is also included in the Annual Comprehensive Financial Report.

Where Do Missouri Lottery Proceeds Go?

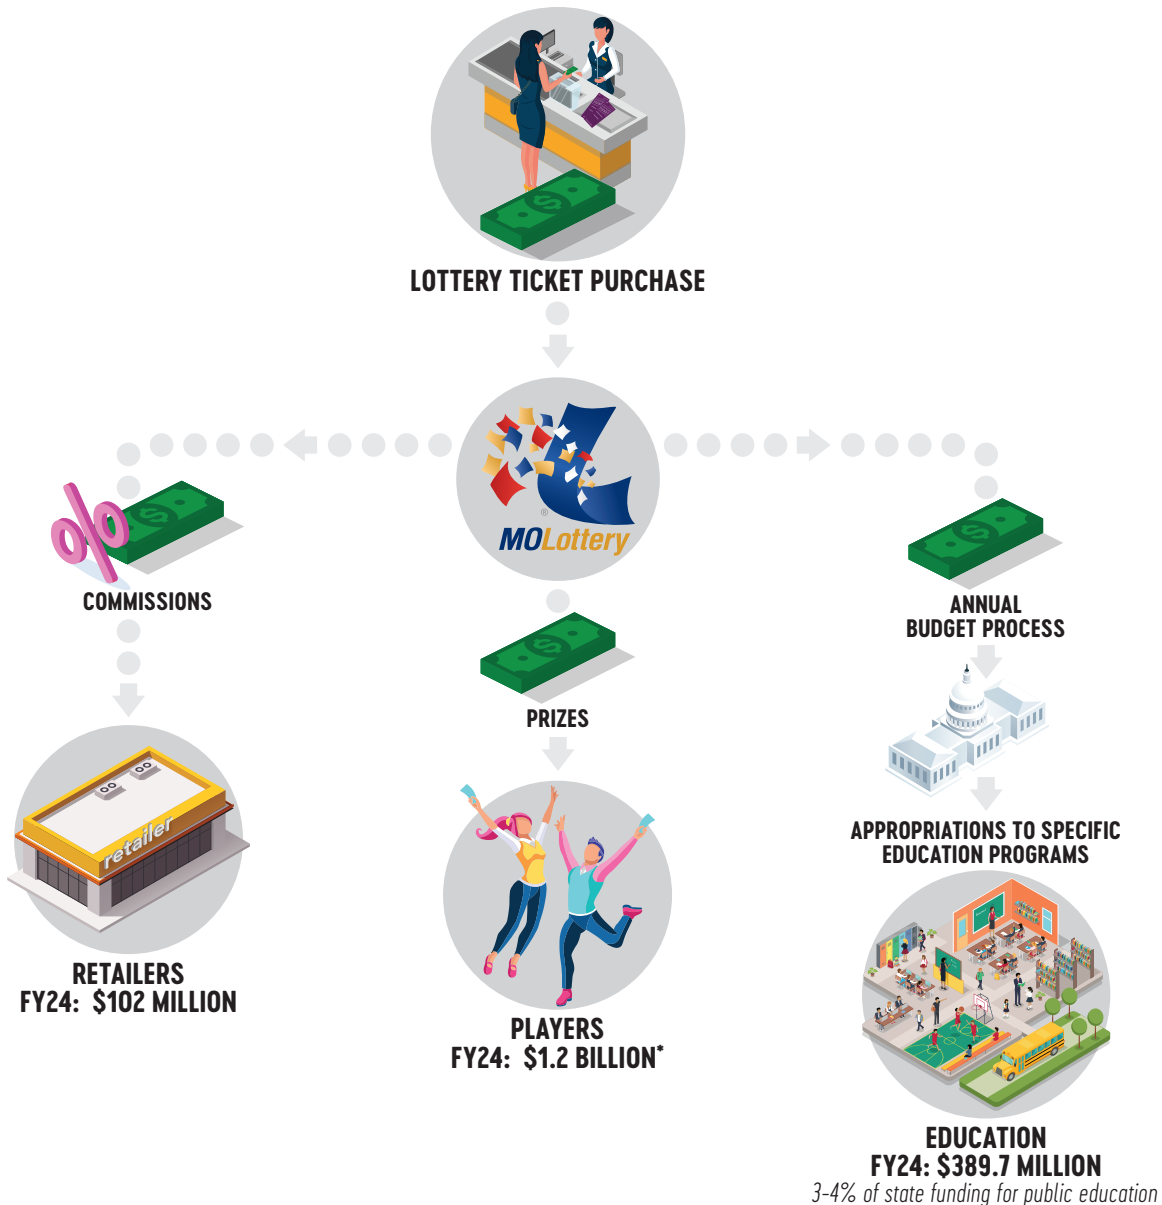

Fiscal Year Results:

Missouri Lottery net profits resulted in more than \$389 million for public education in FY24.

How Proceeds are Allocated:

When the Lottery began in 1986, proceeds from ticket sales went to the Missouri State General Revenue Fund. In August 1992, voters passed Amendment 11 earmarking Lottery proceeds to solely benefit public education. Each year, the Missouri Legislature determines how these proceeds will be allocated. The proceeds represent about 3-4% of the total funding for Missouri's public elementary, secondary and higher education systems.

Lottery funds help support a [variety of programs](#) including the Foundation Program, Transportation Costs, Virtual Schools, Special Education Excess Costs, and operating costs at colleges and universities. These programs and others that receive Lottery money provide the resources that help Missouri students fulfill their individual dreams – dreams that define Missouri's future and ultimately benefit all Missouri residents.

FY25 Missouri Lottery Appropriations

Since 1986, the Missouri Lottery has contributed more than \$8.2 billion to the state of Missouri and public education. Annual Lottery contributions comprise 4% of the state's funding for public education – an effort shared by local, state and federal governments.

For fiscal year 2025, more than \$537 million from Lottery proceeds have been appropriated to Missouri's public education programs by the Missouri Legislature through House Bills 2002, 2003 and 2006 from the Second Regular Session of the 102nd General Assembly. The following is a list of programs that will receive Lottery proceeds.

Missouri AMBER Alert

In the fall of 2001, the National Center for Missing & Exploited Children (NCMEC) launched the [AMBER Alert](#) – America's Missing: Broadcast Emergency Response – nationwide. The goal of the program is to assist cities and towns across the U.S. with creating their own emergency alert plan.

In May 2005, Missouri joined the AMBER Alert Web portal, a nationally connected communication system to help ensure the safety and rescue of missing children.

The Missouri AMBER Alert program is a statewide program designed by the Missouri Department of Public Safety to inform the public of the most serious child-abduction cases. The Missouri Lottery partners with other state and private organizations to communicate the Alerts and utilizes its various communication channels to disseminate AMBER Alert messages to approximately 4,700 retailers and thousands of Lottery players through its social media channels.

How Does Missouri AMBER Alert Work?

Once law enforcement has been notified about an abducted child, they must first determine if the case meets the activating Missouri AMBER Alert criteria:

- Law enforcement officials confirm that a child has been abducted;
- Law enforcement officials believe that the child could be in serious imminent danger; and
- There are sufficient details concerning the abduction to make a public alert useful.

If these criteria are met, Alert information must be put together for public distribution. The information can include descriptions and pictures of the missing child, the suspected abductor, a suspected vehicle and any other information available and valuable to identifying the child and suspect.

The Missouri Lottery's Role

Missouri Lottery retailers and players are in a unique position to help spot missing children. In the event of a Missouri AMBER Alert, the alert message will be broadcast on monitors in retail locations. When possible, this message will also appear on all Draw Games tickets, and the Lottery will publicize the alert on our social media accounts.

Similar to the Missouri AMBER Alert for missing children, the Missouri Lottery also helps disseminate information whenever a Blue Alert is issued. Blue Alerts provide details about violent offenders who have killed, seriously injured, or pose an imminent and credible threat to law enforcement. In the event of a Missouri Blue Alert, the Lottery uses terminal messages, monitor signage and Draw Games tickets at retail when possible to get news out quickly.

Missouri Blue Alert

In 2015, Congress passed the Rafael Ramos and Wenjian Liu National Blue Alert Act, named in honor of two New York City police officers killed in an ambush attack on Dec. 20, 2014. The Act establishes a voluntary nationwide system to give police an early warning of threats against police officers and to aid in the apprehension of suspects who have killed or seriously injured an officer. In 2016, the Office of Community Oriented Policing Services (COPS Office) was asked to implement the Blue Alert Act and establish a [National Blue Alert Network](#).

Blue Alerts provide for rapid dissemination of information to law enforcement agencies, media, and the public about violent offenders who have killed, seriously injured, or pose an imminent and credible threat to law enforcement. Blue Alerts can be transmitted via wireless devices and through the Emergency Alert System (EAS). The National Blue Alert Network works to encourage, enhance, and integrate Blue Alert plans throughout the United States.

The [Missouri Blue Alert](#) program originally began Aug. 28, 2017, and the Missouri Highway Patrol placed information about the program on their website.

How Does Missouri Blue Alert Work?

- All Missouri law enforcement agencies are notified through an email alert.
- Broadcasters and media are notified.
- The public will receive a Wireless Emergency Alert (WEA) message on their cell phone.
- The Missouri Department of Transportation will be notified to activate message signs, if practical.
- The Missouri Lottery will be notified to activate message signs, if practical.

The Missouri Lottery's Role

Missouri Lottery retailers and players are in a unique position to help spot missing children. In the event of a Missouri AMBER Alert, the alert message will be broadcast on monitors in retail locations. When possible, this message will also appear on all Draw Games tickets, and the Lottery will publicize the alert on our social media accounts.

Responsible Gaming

Responsible Gaming Program

With many things in life, there are people who have problems with moderation. Gaming is no exception. Up to 5% of gamblers have problems playing responsibly and could be considered "compulsive" gamblers.

Responsible Gaming Mission:

As a gaming entity, the Missouri Lottery recognizes that while the vast majority of Lottery players gamble responsibly, a small number of Lottery players can experience personal, financial and social difficulties due to playing Missouri Lottery games. Therefore, it is the responsibility of the Missouri Lottery to promote responsible gaming, use responsible gambling best practices and promote the availability of problem gambling treatment.

What Is Problem Gambling?

Problem gambling is a behavior disorder in which an individual has an uncontrollable urge to gamble. Similar to nicotine or alcohol addiction, problem gambling is a progressive addiction characterized by increasing preoccupations with gambling, a need to bet more money more frequently, restlessness or irritability when attempting to stop, "chasing" losses and loss of control. These characterizations are manifested by a continuation of the gambling behavior in spite of any mounting psychological, physical, social, vocational and financial consequences.

How to Recognize Problem Gamblers:

- Frequently think about past gambling experiences, future plans or how to get money for gambling;
- Need to increase spending to reach a high level of excitement;
- Have failed at stopping or controlling gambling;
- Become restless and/or irritable when trying to cut back or stop gambling;
- Gamble to escape problems and to feel better;
- Frequently return to "get even" after experiencing losses (chasing one's losses);
- Lie to cover up gambling activity;
- Have committed or planned illegal acts to finance gambling;
- Have problems with job, school and/or relationships;
- Rely on others to help out financially.

How To Get Help:

The first step in overcoming a compulsive gambling disorder is admitting that there is a problem. If you or a loved one have a problem with gambling, help is available.

When you call the 24-hour toll-free help line, a counselor at the Provident Behavioral Health in St. Louis will refer you to free resources in your area.

Responsible Gaming Program

The Missouri Lottery employs a Responsible Gaming Coordinator to manage the Lottery's Responsible Gaming program and oversee all related initiatives. The Responsible Gaming Coordinator chairs the Lottery's internal committee and serves on other state, regional and national committees that work to raise awareness of problem gambling and safe gaming practices.

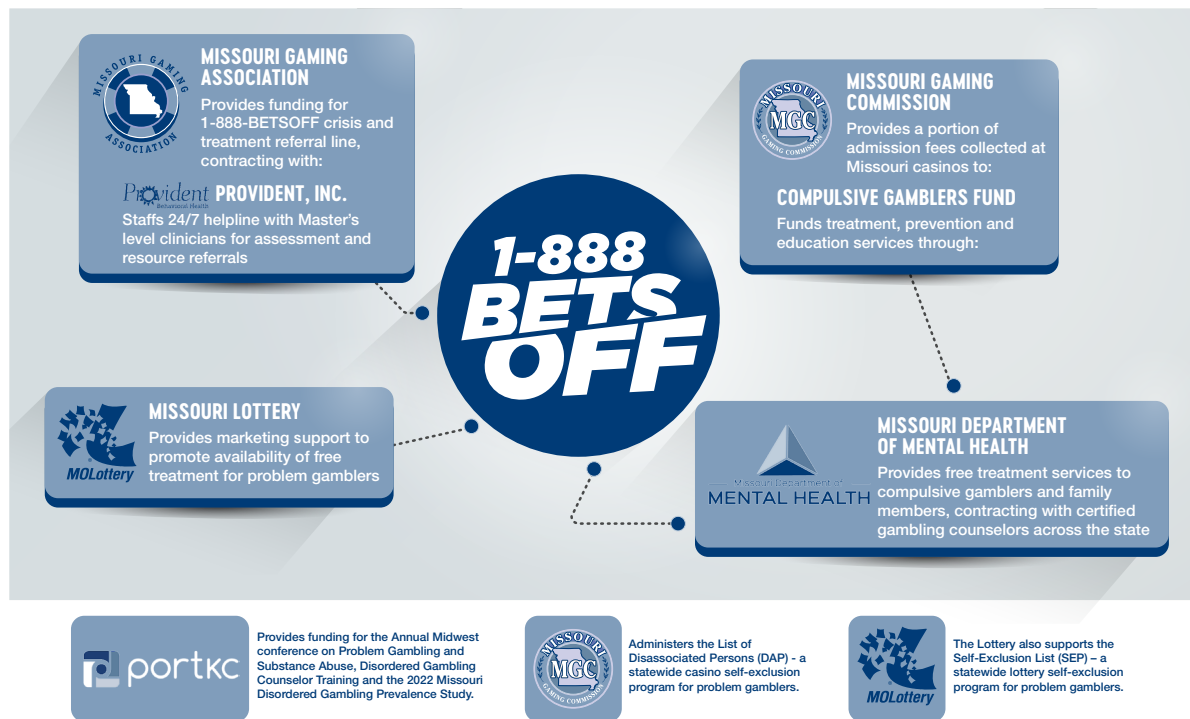

Missouri Alliance to Curb Problem Gambling

The Missouri Lottery is a founding member of the Missouri Alliance to Curb Problem Gambling (the Alliance). Created in 1997, the Alliance is a partnership between the Missouri Lottery, Missouri Gaming Association, Missouri Department of Mental Health's Division of Alcohol and Drug Abuse, Missouri Gaming Commission, Port Authority of Kansas City and a recovery community representative. The Lottery's Responsible Gaming Coordinator serves as the secretary for the Alliance. The Lottery's Communications Manager is also a member of the Alliance.

MACPG

Missouri Alliance to Curb Problem Gambling

The purpose of the Alliance is to educate Missourians on the potential characteristics and dangers

of problem and compulsive gambling, to refer compulsive gamblers and their family and friends to free resources through a toll-free helpline, website and email address, to prevent underage play and to promote responsible gaming. Awareness efforts also include billboards, brochures, posters, social media posts and public service announcements provided by the Missouri Lottery.

Midwest Conference on Problem Gambling and Substance Abuse

The Missouri Lottery is a member of the Midwest Conference on Problem Gambling and Substance Abuse ([MCPGSA](#)), a committee comprised of addiction specialists, problem gambling program coordinators and organizations throughout a five-state region: Iowa, Kansas, Missouri, Nebraska and Oklahoma. The focus of the MCPGSA is to plan an annual problem gambling and substance abuse conference that hosts speakers and participants working within the fields of addiction, mental health and clinical treatment from throughout the country.

The Lottery's Responsible Gaming Coordinator serves as a contributor in the conference.

North American Association of State and Provincial Lotteries

The Lottery's Responsible Gaming Coordinator has served as a member of the North American Association of State and Provincial Lotteries ([NASPL](#)) Responsible Gaming Committee. The delegation exists to develop and promote programs to contribute towards the progression of responsible gaming in all lottery organizations.

In FY17, the Missouri Lottery became one of the first NASPL-member lottery organizations to receive the "Implementation Level" certification. The distinction was awarded through a joint verification process with NASPL and the National Council on Problem Gambling (NCPG). Since FY20, the Lottery has maintained the highest "Sustaining Level" certification for its responsible gaming program.

World Lottery Association Certification

In FY19, the Missouri Lottery became one of the first eight U.S. lotteries to attain the World Lottery Association's ([WLA](#)) Level 4 certification under the responsible gaming framework. The designation is the most prestigious of its kind within the lottery industry and signifies the Lottery's dedication to continuous improvement. To qualify, applying lotteries must demonstrate a commitment to corporate social responsibility and that responsible gaming exists at all levels of operation as demonstrated through 10 program elements.

These elements include:

1. Research
2. Employee Program
3. Retailer Program
4. Game Design
5. Remote Gaming Channels
6. Advertising and Marketing Communications
7. Player Education
8. Treatment Referral
9. Stakeholder Engagement
10. Reporting and Measurement

The Missouri Lottery was recertified at Level 4 in FY22 through a recertification process that takes place every three years. The Lottery previously earned the Level 3 certification in FY14 — the sixth U.S. lottery to do so — and was one of the first U.S. lotteries to achieve a Level 2 certification in FY13.

Gift Responsibly Holiday Campaign

Each holiday season, the Missouri Lottery participates in an [annual holiday awareness campaign](#) that focuses on promoting responsible gaming and not gifting lottery products to minors. The campaign is sponsored by McGill University, the International Centre for Youth Gambling Problems and High-Risk Behaviors, and the National Council on Problem Gambling (NCPG). Each year, dozens of lottery organizations from around the world participate in the program.

Way to Play!

In 2022, the Lottery launched the "Way to Play!" player campaign with a gameshow themed format and host, Mr. Gary Gamegood. The campaign's guiding principle is that the key to enjoying lottery games is knowledge. The more a player knows about how our games work and the chances of winning, the more likely they are to enjoy responsible play.

A "[Way to Play!](#)" video series features fun, informative videos that cover both Scratchers® and Draw Games and even debunk some common lottery myths:

- Episode 1: "What are the Chances? Scratchers Edition"
- Episode 2: "What are the Chances? Draw Games Edition"
- Episode 3: "Time is Money"
- Episode 4: "Location, Location, Location"
- Episode 5: "Ticket Tactics"

Self-Exclusion Program (SEP)

The Missouri Lottery's [Voluntary Self-Exclusion Program \(SEP\)](#) is a responsible gaming resource for players who classify themselves as problem gamblers to reduce the incentive to play Lottery games. Introduced on Aug. 1, 2013, individuals who enter into the SEP are prohibited from claiming prizes of more than \$600, accessing the My Lottery® Players Club and from receiving Lottery-generated text messages and emails.

Individuals wishing to opt-into can find the SEP application at [MOLottery.com](#) under the "[Play Responsibly](#)" page. Applications can also be obtained when visiting a Lottery office or through the mail. Individuals should sign, notarize, then submit agreements to the Lottery. In the agreements, players acknowledge they are voluntarily applying to be a part of the program for life.

Completed and notarized forms can be mailed to the Lottery at: Missouri Lottery, Attn: Responsible Gaming Coordinator, P.O. Box 1603, Jefferson City, MO 65102-1603

'DO THE RIGHT THING' Retailer Integrity and Responsibility Program

Each year, the Missouri Lottery's Sales team oversees an annual compliance check with approximately 4,772 Lottery retailers. These checks ensure that the Lottery's retailers are following responsible gaming protocols such as player age confirmation, verification of secure Scratchers® tickets storage and having Lottery-provided responsible gaming information readily accessible to players. In FY24, approximately 96% of Missouri Lottery retailers met the standards as outlined in the "Do The Right Thing" program.

Report a Suspected Illegal Gambling Machine

While many electronic gambling machines are generically referred to as Video Lottery Terminals (VLT), the Missouri Lottery does not currently operate such terminals in the state. Other non-regulated machines widely seen at retail are not affiliated with the Missouri Lottery and may not offer the same standards as the Lottery in prize payout or responsible gaming measures. Additionally, these machines do not provide money for our state education system, as Missouri Lottery sales do.

Suspected illegal gambling machines may be reported anonymously [online](#) or by telephone at (573) 526-4080.

Frequently Asked Questions

Q. Do Lottery proceeds really go to schools?

A. Yes. All profits – 100% – go to Missouri [public education](#). Annual Lottery proceeds make up approximately 3-4% of the state’s funding for public education.

Q. Does the Missouri Lottery offer subscription sales to players?

A. No. Players can purchase Missouri Lottery tickets from a licensed Missouri Lottery retailer.

Q. Can I purchase Lottery tickets online?

A. No. The Missouri Lottery does not currently offer sales via the Internet.

Q. Can I use my debit or credit card to purchase Lottery tickets?

A. Yes. There are no Missouri laws or Lottery policies that prevent the purchase of Lottery products at the counter or Lottery vending machines using debit or credit. The Lottery leaves that up to the discretion of our retail partners. Each retail location is given the freedom to accept (or not accept) debit or credit cards for Lottery purchases, based on their own business goals and guidelines.

Q. Who oversees casinos and bingo games?

A. Casinos and bingo games are not a part of the Missouri Lottery. They are governed by the Missouri Gaming Commission.

Q. Is there a danger of Lottery players becoming compulsive gamblers?

A. Studies show that about 1% - 5% of those who participate in any kind of gambling activity can experience a gambling problem.

Q. How can I become a Missouri Lottery retailer?

A. Only businesses located within the state of Missouri can be Missouri Lottery retailers. Visit retailer.molottery.com to learn more or see page 53 in the Fact Book.

Q. If I win a big jackpot prize or an annuitized Scratchers® prize and die before I receive it all, where does the remaining money go?

A. When a winner receiving annuity payments dies, the Missouri Lottery continues to make payments to the winner's estate.

Q. Where can I find past winning numbers?

A. You can find complete lists of past numbers drawn in the "[Winning Numbers](#)" section at MOLottery.com. More recent winning numbers can also be found on the Lottery's mobile app or by calling the winning numbers hotline (573) 751-1111.

Q. Why is the cash value of a jackpot only about half of what is advertised? Where does the rest of the money go?

A. The lump-sum cash payment is approximately half of the advertised amount since the Lottery will be giving you the money it would have invested over 29 years (30 graduated payments) for a [Powerball®](#) jackpot or a [Mega Millions®](#) jackpot, 24 years (25 payments) for a [Lotto](#) jackpot or a guaranteed minimum of 20 years for [Cash4Life®](#).

Q. Are the terminals in retail locations and the drawing equipment connected in any way?

A. No. Each drawing machine is self-contained and independent of any other system. See Drawing information on page. 46 for complete details.

- Q. Does anyone in Missouri ever win the Powerball® jackpot?**
A. Out of the 47 lotteries participating in the Powerball game, Missouri ranks second behind Indiana in the number of Powerball® jackpot winners with 31.
- Q. Can a group of people claim a prize?**
A. Yes. Each member will need to complete and submit a claim form.
- Q. Can Powerball®, Mega Millions and Cash4Life® players redeem their winnings in any member state?**
A. No. Players must redeem their prizes in the same state they bought the tickets.
- Q. Since so many people play Powerball®, Mega Millions and Cash4Life®, aren't the chances of winning worse?**
A. No. No matter how many people play these multi-state games, the chances of winning never change. The chances are based on the amount of number combinations, not the number of players.
- Q. If I buy a Quick Pick ticket, can anyone else buy those numbers using Quick Pick?**
A. Yes. Quick Pick tickets are generated randomly by the terminal at the retail location, and there is no central computer that is controlling ticket generation. The chances of buying a Draw Games Quick Pick ticket with the same numbers as someone else are the same as the chances of winning the jackpot.
- Q. If I should win the jackpot, do I have the option of remaining anonymous to the public and the media?**
A. The Lottery does not release names or other personally identifiable information without the written consent of the player. Information about the amount of the prize and where the ticket was purchased will be released.
- Q. Where can I hear about top-prize winners in Missouri Lottery games?**
A. News releases are posted in the "[Media Center](#)" section at [MOLottery.com](#). [A map of Missouri marking](#) retail locations where prizes of more than \$1,000 were sold is also posted on [MOLottery.com](#) each month.
- Q. Does anyone know where the winning Scratchers® tickets are located?**
A. No. Because of strict security measures, no one – including Missouri Lottery employees – knows where winning Scratchers® tickets are located. Additionally, the Lottery does not know when a top prize-winning Scratchers® ticket is sold until the ticket is redeemed.
- Q. Are there fewer Scratchers® prizes now?**
A. No. The chances of winning Scratchers® games continue to improve. In the Lottery's early days, the games only paid out 45% of sales in prizes, the maximum amount allowed by law at the time. Today's Scratchers® games pay out an average of 73% of sales in prizes, ranging from 62% in \$1 games to 80% in \$50 games. Scratchers games have average chances of winning of 1 in 4, ranging from 1 in 4.81 in \$1 games to 1 in 2.93 in \$50 games.
